

REMOTE CONTROL GAS AUTO PIPE CUTTING MACHINE

# AUTO PICKLE

 KOIKE SAN SO KOGYO CO., LTD.

# AUTO PICKLE MEANS PIPE CUTTER CONVENIENCE.

REMOTE CONTROL OPERATION PANEL

The Auto Pickle is a portable remote controlled auto pipe cutting machine, the result of many years of study for better safety and rationalization.

## FEATURES

- 1 The chain and gear drive system ensures a stable, even pipe cut.
- 2 Cutting of any size of pipe between 150–600mm $\phi$  (6–24") is possible with the standard chain. And links can be added to the chain for larger pipes.
- 3 The Auto Pickle can be easily set at any desired position on the pipe.
- 4 The clutch provided in the drive unit makes centering easy.
- 5 The remote control operation panel contains all the switches necessary to make accurate cuts.
- 6 To prevent rust and wear, the gear wheels have been hardened with nitrogen and painted black.
- 7 The construction has been simplified for easy inspection and maintenance.

## SPECIFICATIONS

Weight:	14 kg
Dimensions:	Length: 270mm (11") Wheel track: 230mm (9") Height: 420mm (16")
Power source:	AC110V/120V/220V 50Hz/60Hz
Speed control:	SCR
Speed adjustment:	By dial
Cutting speed:	100 – 700mm/min (4 – 28 inch/min)
Effective pipe diameter:	150 $\phi$ – 600 $\phi$ mm (6 – 24")
Pipe thickness:	5 – 50mm (0.2–2")
Cutting shape:	Square and bevel (up to 45")
Motor:	20W 10,000 RPM

## ACCESSORIES

Tips:	1 each of #0, 1 & 2 (102 for acetylene, 106V for LPG)
Lighter:	1
Fuse, 2A:	2
Chain:	80 link 2.35m (94") long
Tip cleaner:	1 set
